Chief, Communications Division

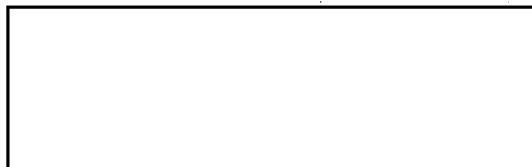

28 June 1951

Chief, Operations Branch

Monthly Report for Operations Branch, June 1951

**CRYPTOGRAPHIC STAFF COMMUNICATIONS:**

1. Staff cryptographic communications were activated to the following stations:

2. Staff cryptographic communications were approved for:

3. Code Clarks were assigned, as requested,

4. Arrangements were completed for the conversion to Codrins procedure on 1 July 1951.

5. Arrangements are pending for the activation of the circuit 2 July 1951.

6. A category G4 Budget estimate was supplied to Administration. This estimate is for the fiscal year 1953.

7. An investigation was completed concerning transmission delays involving SEC messages to . The delay was caused by loss

**CRYPTOGRAPHIC AND CLANDESTINE COMMUNICATIONS:**

1. The overt signal plan was pouched to . An RT-1 transmitter, RM 139X receiver, and accessory equipment have been requisitioned for this station.

2. An emergency communications plan was prepared and pouched to the station. The overt signal plan was also pouched. The clandestine signal plan will follow when completed.

5. Signal plan, cryptographic material, crystals and instructions have been sent to [ ] to be used for emergency purposes. This signal plan is based upon [ ]

25X1A  
25X1A  
ILLEGIB

6. Night signal plans were dispatched to the [ ]

25X1A

7. A transmission test schedule has been forwarded to [ ] and will be put into effect approximately 1 July 1951. [ ] is the project name.

25X1A

25X1A

8. [ ] - Policy determinations are being made regarding submission of additional types of signal plans by the [ ] respectively. It has been requested by the field that a meeting on this subject be assembled approximately 1 August 1951.

25X1A

25X1A

9. [ ] - Communications have been received from the field outlining priorities of placement of equipment and signal plans and the production of signal plans for this operation is being done in accordance herewith. Also under [ ] a paper is being prepared on the subject of activation of [ ] circuits which it is believed will serve to establish a procedure for this type of undertaking in connection with most activities.

25X1A

25X1A

25X1A

25X1A

25X1A

10. Plans are going ahead for the establishment of an OPC operational base at [ ] Campo has been requested to arrange for staff transfer to [ ] starting 1 August and to be prepared to begin training of ten students at [ ] by 1 September 1951.

25X1A

25X1A

25X1A

11. Work has started on the radio tower base [ ] A four position campo station is being installed.

25X1A

25X1A 20. The [ ] project has set up two sub-bases [ ]  
25X1A [ ] has been assigned to the project on 130 days  
and will depart by 7 July. [ ] will finish training on 27  
July and will depart shortly thereafter. 25X1A

25X1A 21. [ ] will depart for [ ] by 25X1A  
15 July. 25X1A

25X1A 22. Personnel for the [ ] project are being selected. A forty-three  
man T/O was submitted for approval as necessary to support the [ ]  
It will not be possible to fill this T/O until additional people are recruited  
and trained or until Military personnel are available.

25X1A 23. [ ]  
25X1A 24. [ ] returned to Washington from a [ ] inspection tour and  
25X1A relieved [ ] as [ ] Communications Area Officer. 25X1A

25X1A 25. [ ] has arrived in [ ] to assume the duties of communications  
communications Training Officer for [ ] 25X1A

25X1A 26. The [ ] training area was established. This setup is similar  
25X1A to [ ] it is merely a large residence camp with appropriate cover  
and is operated by our communications instructors. This area will cover the training  
25X1A of [ ] operations for both OGC and OMC. A separate residence  
will be prepared to allow separation of the OGC and OMC trainees. 25X1A

25X1A 27. The Chief, [ ] made a trip to [ ] where he spent two weeks talking  
over the communications responsibilities for this area and getting many of their problems  
worked out. Plans were laid and motivated toward construction of a joint communications  
base radio station to take the place of [ ] and the [ ] radio base at [ ]  
such. This combined base will be called [ ] 25X1A

#### Far and Southeast Asia

25X1A 28. The base schedule begins for [ ] together with crystals and signal  
Plan instructions were forwarded to [ ] All signal planning will now be  
done in the area by [ ] staff. 25X1A

25X1A 29. The processing of seven additional communications technicians for the OGC  
[ ] activity is continuing. It is expected that two of the  
seven will be ready for departure around the first week in July. The remainder  
are scheduled to leave after the fifteenth of July.

#### Latin America

25X1A 30. A proposal has been received from [ ] to activate a radio station in  
[ ] for lateral service to the Latin American area. 25X1A

25X1A 31. Planning is continuing for the conversion of the Latin American  
network to the status [ ] 25X1A

32. The acute shortage of personnel continues to be felt in this area.

DISPATCHES:

25X1A

[redacted] are continuing their research and investigation in consolidating information pertaining to various covert and overt projects. This information, prepared on specifically derived forms, is intended to reflect an up-to-date account as to the status of each project. These forms reflect information pertaining to Signal Plans, operations, cryptographic support, equipment, traffic routing, etc.

EXTENSION AND PROPAGATION SECTION:

Completed prediction curves for [redacted] both FOT's and WOT's 25X1A

Improvements continued for increasing the variability of propagation calculating equipment.

The following curves were completed:

25X1A

[redacted]

The preparation of curves for [redacted] are continuing 25X1A
